Re: Reply Comments to DA 12-1863, IB Docket No. 12-340; RM-11683

Dear Federal Communications Commission:

The wireless industry is increasingly important to education and jobs and the American economy. I think that every American should have access to wireless services and thus be able to benefit from the technology that is one of the very few growth drivers for our economy.

I have followed LightSquared's developments through the news and felt compelled to write and urge the Commission to support this company. As you well know, the Federal Communications Commission is an independent agency with a stated mission of ensuring "that the American people have available – at reasonable costs and without discrimination – rapid, efficient, nationwide and worldwide communication services." LightSquared can do that and it is time you let them move forward.

The Commission should approve LightSquared's request to modify its license so it can provide a nationwide wireless broadband service using spectrum shared with the federal government. This seems only fair when the company is giving up its other spectrum to protect GPS devices.

Thank you for your time and swift consideration.

Sincerely,

A handwritten signature in blue ink, reading "Kathie Conway". The signature is fluid and cursive, with the first name "Kathie" and last name "Conway" clearly distinguishable.
